

## **2026 Lake Redstone Protection District Commissioner Candidate Bios**

### David Crockett

My wife, Jeannine and I purchased a home on the lake in 2012. We are members of the Lake Redstone Property Owners Association. I have performed annual financial reviews of the LRPOA since 2018.

I have served on the LRPD Board for three years as treasurer and I am currently the chairman of the electronic records committee. My career included auditing, accounting, bank administration and personal financial planning.

I am impressed with the knowledge and commitment of board members and volunteers in their efforts to improve the quality of Lake Redstone and would like to continue to serve the District.

### Brad Horner

My wife Kim and I have lived part-time and full-time on Lake Redstone since 2007. During that time, we have come to love and appreciate the lake and its amazing history. Even while working full time, I had to make time to get involved with the lake.

I've been an LRPD Commissioner since 2020. I first served as the Chair of the Education and Outreach Committee. Since last year, I have been the Chair of the Sediment Control Committee and am also the Secretary of the LRPD. During that time, we have taken some innovative and highly visible actions to maintain and improve the water quality in Lake Redstone.

I look forward to having a role in implementing the 2026 and 2027 LRPD plans and to continuing to serve the Lake Redstone Protection District as a commissioner.
