

Q16 What topics/ subjects do you want to hear more about regarding the LRPD?

Answered: 70 Skipped: 142

#	RESPONSES	DATE
1	Sediment fill in areas around homes.	7/1/2022 9:43 AM
2	If not already, would be great if the shoreline and invasive plant workshops could be held virtually as well as in person. Thanks for all you do!	6/30/2022 10:32 AM
3	Enforcement of no wake zones along shorelines, to reduce the shoreline erosion.	6/30/2022 8:26 AM
4	Invasive plant and animal species.	6/29/2022 9:17 PM
5	Run off projects up stream	6/28/2022 8:24 PM
6	water quality	6/25/2022 3:02 PM
7	Lake oxygen levels for fish	6/24/2022 10:20 AM
8	Is the water safe. Is it safe for fish.	6/23/2022 7:58 PM
9	No rentals	6/23/2022 8:41 AM
10	Results of recent fish sampling. How to improve clarity of water.	6/21/2022 4:30 PM
11	Farm runoff control	6/21/2022 3:08 PM
12	Improving water clarity and better control of runoff water entering the lake.	6/20/2022 4:17 PM
13	Size of boats on the lake.	6/17/2022 6:45 PM
14	Implementing a buffer zone that isn't so restrictive as described in last July's meeting.	6/16/2022 9:57 AM
15	It would be nice to see a list of vendors who specialize in Shoreline restoration projects. It seems like finding good contractors (Who charge a fair price and are available to do the work) can be a challenge.	6/14/2022 8:06 PM
16	- grants for improving shorelines - grants for fixing damage culverts leading into lake - fish survey results - how/if the water quality affects safety of swimming in the lake or eating fish from the lake	6/14/2022 9:23 AM
17	Shoreline erosion in narrow areas. Needs to be better enforcement of slow no wake.	6/14/2022 9:00 AM
18	Water Clarity and pollution run off issues and potential improvements	6/14/2022 8:51 AM
19	We have seen new homeowners take down more trees than they should, essentially clearcutting their lake frontage. We know this negatively affects the nature and landscape and want fines for these actions to be large enough that wealthy landowners cannot afford to simply pay the fines to do as they please and damage the environment around this beautiful lake community.	6/14/2022 7:56 AM
20	Financial support for shoreline and sediment control.	6/13/2022 10:12 PM
21	Work with DNR to recreate sediment ponds that used to capture sediment before it reaches lake. These ponds were wiped during flood. Land owners would like to recreate but the DNR is making it difficult for them by requiring 15,000 dollar studies.	6/13/2022 9:41 PM
22	Water clarity/ AP control	6/13/2022 9:39 PM
23	Septic field rules	6/13/2022 6:49 PM
24	what progress, or regress has happened to lake water quality each year	6/13/2022 5:36 PM
25	None	6/13/2022 5:27 PM

Lake Redstone Protection District Survey 2022

26	Efforts to return water clarity to Redstone.	6/13/2022 4:53 PM
27	fish populations	6/13/2022 4:11 PM
28	???	6/13/2022 4:11 PM
29	Shoreline erosion from large wake boats	6/13/2022 3:54 PM
30	Sediment coming into the lake from runoff and local streams.	6/13/2022 3:21 PM
31	prevention of eroding of land and what the LRPD is doing to protect against land erosion	6/13/2022 2:41 PM
32	Shoreline erosion caused by large wakes and improper placement of "Slow-No Wake" buoys.	6/13/2022 2:24 PM
33	maintenance and improvement of water quality for swimmers; regulations to make boat traffic safer and less intrusive to property owners (rules regarding speed and operation times for wave runners, rules regarding speed and noise for boats (for example, please limit loud music to certain hours; we are constantly disturbed by "partiers" who anchor just beyond our shoreline and stay all day, playing very loud rap music)	6/11/2022 1:29 PM
34	Fish survey results. Fish improvement	6/10/2022 2:10 AM
35	Use and impact of 'wake' boats and similar on lake	6/9/2022 9:04 PM
36	Where they are spending the money.	6/9/2022 6:50 AM
37	None at this time	6/8/2022 2:47 PM
38	The LRPD is doing a great job at providing our lake!	6/7/2022 1:21 PM
39	Fishery	6/6/2022 5:02 PM
40	Water clarity	6/6/2022 12:42 PM
41	Carp removal	6/6/2022 11:19 AM
42	Best practices for different types of shorelines. I checked "concerned" on a number of items, not that I know of specific issues, but I believe ongoing vigilance is essential.	6/6/2022 7:57 AM
43	The complete collapse of the fishery. I mean, seriously, what the heck has happened over the last 5 years? It's turned into the Dead Sea.	6/5/2022 7:53 PM
44	Could the workshops be put in a webinar, for easy access online	6/5/2022 5:07 PM
45	The current status of aquatic plants in our lake as a result of the recent dredging program as compared to its status before. There don't seem to be a lot of plants now in our Mourning Dove/Oriole bay as before. What type of APs are here now compared to before dredging. What is the DNR's AP policies now since they abandoned their AP concerns to allow dredging?	6/5/2022 10:34 AM
46	You're doing a good job.. thanks	6/5/2022 9:04 AM
47	We would like you to address that wake boats, jet skies and excessive size motors cause huge waves which cause erosion big time. We would like you to pressure local, county and state officials to limit motor sizes/speeds on long narrow lakes such as ours. We have a shallow shoreline and the waves can knock us down when standing in the water. Also, sometimes the waves get so high that they go over our rip rap. This is not Lake Michigan! It is a small narrow lake that cannot handle the excessive waves.	6/5/2022 8:06 AM
48	Available help for properties prone to flooding due to in proper culvert maintenance-northwest end of lake.	6/4/2022 11:01 AM
49	Water clarity and fishery improvement.	6/4/2022 10:11 AM
50	How we build community at the lake? How to better protect the shoreline Care for the lake in general	6/4/2022 9:02 AM
51	Shoreline erosion	6/4/2022 8:29 AM
52	More timely updates on funding/grants for the dredging project. Run-off project results and tactical plans.	6/4/2022 7:55 AM
53	Fishing habitat conservation	6/4/2022 7:50 AM

Lake Redstone Protection District Survey 2022

54	I would like to see a summary of Lake Redstone water quality results pre and post Dredging. (I did see the dredging results regarding how much was pulled from the lake). I also wonder if more can be done with chemicals or herbicides to help improve water quality and/or combat the large phosphorous content. Sorry if that's already been published.	6/4/2022 7:48 AM
55	I feel like the board assumes it's responsibilities in a comprehensive and meaningful way. Topics are addressed and resolved appropriately.	6/4/2022 6:01 AM
56	Heard about the flood a few years ago, what measures are now in place to mitigate the damage while the flood is happening?	6/4/2022 5:48 AM
57	Lake bottom muck	6/3/2022 10:32 PM
58	Water clarity, results of last year dredging	6/3/2022 10:12 PM
59	Erosion control	6/3/2022 9:30 PM
60	None right now. I think they are doing a good job.	6/3/2022 8:26 PM
61	There has been a noticeable felling of trees on higher lots- more than 25% - for views this will also impact runoff into lake and there seems to be no DNR oversight.	6/3/2022 8:25 PM
62	Large sediment and rock buildup and fertilizer runoff in our lakefront water due to farm and uphill property runoff	6/3/2022 6:00 PM
63	run off from farms and properties	6/3/2022 5:38 PM
64	I like all updates	6/3/2022 5:26 PM
65	What can/should lakeside homeowners be doing	6/3/2022 5:07 PM
66	Lake weeds	5/25/2022 7:02 PM
67	overall water quality - not just phosphorus content	5/20/2022 8:33 AM
68	Mitigation of farm runoff in drainage ditches to the lake.	5/16/2022 10:15 AM
69	What is the effect of the various types of boating on water quality. Are there any health issues with the water quality and is it monitored	5/16/2022 8:14 AM
70	Internal P loading	5/13/2022 8:27 AM
